ABOUT LW

Making India, Future Ready!

10,50,000+

Students enrolled
from various background

5,65,000+

Working Professionals
enrolled from various MNC's

400+

Companies benefited
by our Consultancy Services

100+

Technical Volunteers
to help learners succeed

None of the Technologies are Complex or difficult since they are created by Human Being... Hence ANYONE can learn it and Create Something New & different

- Mr. Vimal Daga

Present

Transforming Engineers into the Technology Creators by developing an entrepreneurial mindset and inculcating technical competencies to innovate and produce products accepted globally

Future

To build visionaries from Engineering Students and major contributions towards the technological growth of our nation. Soon Indians to be known as "**Creators in the Technology Space**"

ABOUT ARTH

The School of Technologies

**नास्ति बिद्यासमो बन्धुर्नास्ति विद्यासमः सुहृत् ।
नास्ति विद्यासमं वित्त नास्ति विद्यासमं सुखम् ॥**

"ARTH" – An Online Technology Driven 12 months Initiative ideated, designed & will be executed by The World Record Holder – Mr. Vimal Daga

We the young generation of India need to once again get back to our ancient methodology for integrating the latest and future technologies and to sense the **ARTH** of real education

Wandering what's so different & why it's not just an ordinary online program?

Integration of 10+ Technologies

Data Science | Containers & Kubernetes | DevOps | Cloud Computing | DSA with Competitive Programming | Campus Recruitment Training | Linux and Networking | Programming Language | Full Stack Web Dev. Using MERN | DBMS

1,200+ Hours of Intensive Learning

1,000+ Hours of Live Instructor Based Sessions | Industry Use Cases | Research Based Projects

200+ Hours of Self Paced Training

INIT – A platform for all

Core Technical Profile Jobs | Work from Home – Technical Opportunities | Technical Internships | Freelance Technical Projects

KNOW YOUR MENTOR

Mr. Vimal Daga

TEDx Speaker and Philanthropist

Appreciated for his talk at TEDx platform since he had awakened Youth of India especially Engineering Students to think and innovate for our Nation. Founded a community named as Indian Innovation & Entrepreneurship Community (IIEC) for the betterment of Engineering Students

Sr. Principal, IT Consultant

Consulted and Trained Top Level Architects, Research and Development teams of Fortune 500 Companies on technologies namely Artificial Intelligence, Machine Learning, Deep Learning, DevOps, Docker, Kubernetes, BigData, Cloud, AWS, Splunk, Delphix, PingFederate, Python, and many more

World Record Holder

RedHat Certified Architect (RHCA) Level 25 with Enterprise Application Level 11. The Only One to clear 11 AWS Global Certifications in just 11 days – Active 13x AWS Certified.

COMPANIES BENEFITED FROM HIS EXPERIENCE

TESCO

IBM

RBS

SAMSUNG

accenture

J.P.Morgan

Capgemini

DELL

KEY FEATURES OF ARTH

The School of Technologies

Integration of 10+ Technologies

The Key behind solving any industry use case is integration of technologies as per the need

Learn the Core Concepts behind latest technologies

Gain the in-depth knowledge of the core technologies with core concepts in detail

Learning under the mentorship of Mr. Vimal Daga

Enhance your technical skills under the mentorship of the World Record Holder

Online Live Instructor-Led Sessions + Self-paced learning

Interactive Practical Sessions, Online Live Classes to give you the Classroom Environment

Get Industry Ready by Working on Real Projects

Become Industry Ready equipped with the desired skills by completing the projects and presenting it

The 24 hours assistance, whenever you need it

Reach out to our 100+ Highly skilled Technical Volunteers and get your doubts solved promptly

More than 50+ Learner Heads Support

Get your management related concerns answered instantly under the assistance of Learner Heads

ABOUT INIT

The Outcome of the Life-Changing Program ARTH

It's not what we say, it's what we believe, and we know from our past experiences that we can make our beliefs come true. INIT is going to be the most revolutionary platform that today's world can't think of.

Why we are excited about INIT? Also, why we want you to be excited more than us??

After observing and understanding the market need – The Global Public Cloud Services Market is projected to reach \$623 Billion by 2023, along with the Big Data Analytics market reaching to \$103 Billion. This rapid expansion means more jobs being created for technically skilled talents. We believe “Students in India have the opportunity to shape the world”.

INIT has its dimensions depending upon the learners & their needs

First & Second Year Learners

Third Year Learners

Final Year Learners

Technical WFH

Core Technical Product Based Companies across the globe are in search for students who have core concepts and can integrate multiple technologies to solve the industry use cases.

Technical Internships

Learners would be connected with the companies looking for technical interns having prior knowledge of DevOps, Machine Learning, Cloud Computing, AWS, Scripting, and much more.

Full time Job

Learners will be fit for the desired profiles viz Full Stack Developer, Data Engineer, Data Scientist, AI Engineer, and many more. Learners passing out from this program can work in any domain as per their interest.

PROGRAM DETAILS

Registration Process

ARTH - The School of Technologies

An Education made easy & affordable for each and every student of India with right core concepts and right mentor. Mr. Vilmal Daga is working towards his vision of "**Making India, Future Ready**"

Eligibility

Students pursuing any technical degree namely BTech, BE, MCA, Mtech, BCA, BSc IT (from any stream)

Tentative Program Starting On

01st September 2025

Online Live Training Schedule

Tuesday - Sunday | 7:00 pm - 10:30 pm IST

Program Duration

12 months, 1,200+ hours

Deliverables

- Training Certificate from LinuxWorld Informatics Pvt Ltd
- Project (Internship) Certificate from LinuxWorld Informatics Pvt Ltd

CONTENT DETAILS

Learn each and every topic mentioned below from basic to expertise level

Specialization in Data Science

- Machine Learning
- Deep Learning
- Computer Vision
- Natural Language Processing

Specialization in Containers & Kubernetes

- Expertise in Docker
- Global Certified Kubernetes Administrator Training (CKA)
- Global Certified Kubernetes Developer Training (CKAD)
- Podman

Specialization in DevOps

- Global Training in Ansible
- Global Expertise Training in CI/CD using Jenkins
- Monitoring & Visualization Using Prometheus & Grafana
- Managing Projects Using Git & GitHub
- Learning CI/CD using GitLab

Programming Language

- Industry Relevant - Python Programming
- Complete Bash Shell Scripting

COURSE DETAILS

Learn each and every topic mentioned below from basic to expertise level

Advance Data Structures & Algorithms (DSA) with Competitive Programming

- DSA Core
- Data Structures
- Tree & Graph Based DSA
- Sorting & Searching
- Algorithms
- Greedy Algorithms
- Dynamic Programming
- Network Flow Algorithms
- Advanced Algorithms & much more

Specialization in Cloud Computing

- Global Certified AWS Solution Architect Associate Training (AWS-CSA)
- Global Certified AWS Developer Training
- Global Training in Managing Infrastructure Using Terraform
- Overview of Google Cloud - GCP
- Overview of Microsoft Azure Cloud

Database DBMS system

- Essential MySQL RDBMS Training
- Expertise in MongoDB NoSQL

COURSE DETAILS

Learn each and every topic mentioned below from basic to expertise level

Full Stack Web Development Using MERN

- HTML / CSS / Client and Server Side JavaScript Training
- Expertise in MongoDB NoSQL
- ExpressJs Framework
- ReactJs Framework
- Node JS

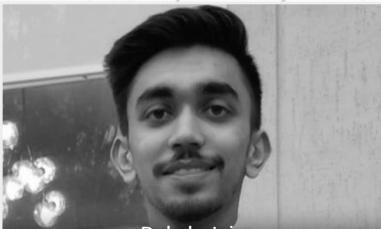

Campus Recruitment Training (CRT)

- Complete Aptitude Test Concepts & Practise
- Resume Building with Interview Preparation
- How to build Recruiter's Choice - Technical LinkedIn Profile

Integration of cutting-edge technologies mentioned above & implementing the same by solving real time industry use cases

STUDENT TESTIMONIALS

ARTH was a 10+ months program that helped me understand the technologies that are demanded in the industry. I learnt multi-cloud & DevOps toolkit as part of ARTH. I understood that technology is not enough to shine in the technical industry. Creativity, Blogging, Sharing, Team Management, Communication & Technology altogether help to achieve success.

ARTH - I pronounce ARTH as All Rounder Technology Hunk !!

Daksh Jain

SRM Institute of Science & Technology

I got this job because of ARTH. The technologies that vimal sir taught me were the main reason of getting this job. Learning 10+ technologies helped me in the interview and the aptitude sessions helped me in clearing the aptitude test of the company. ARTH not only gave me the technical knowledge but also the mindful sessions helped me keep my mind stable.

Balaji Pandhawale

Tatyasaheb Kore Institute of Eng. & Tech.

It was superb journey and I learnt all the concepts of DevOps and cloud under mentorship of vimal daga sir under Arth .

Vaibhav Jain

Teerthankar Mahaveer University,
ARTH help me to grow technically and helped me to create a good LinkedIn profile ,and i learned about all the top technology(cloud computing+devops) from Arth 1.0, this give me confidence to crack interview.

Vijay Yadav

Poornima University

"My journey with LinuxWorld started from the Specialist in Python Data Science Program, During the pandemic, I joined ARTH - The School of Technologies. From that time I got to know these Cloud DevOps technologies also exist. My interest started building up in these technologies .They have shown us the right path even though I learnt the importance of spirituality and sharing culture. Whatever I have learnt it also helped me to achieve to be a part of AWS Community Builders. and cleared the certifications like AWS , RHCE..ARTH is life changing program. A memorable part of my life. The main key to clearing these interviews was my confidence and technologies I learnt . How you perform in any field , but in your every moment confidence should be presented. The selection process with Searce Inc was amazing."

Dolly Mehra

Bharat Institute of Technology

STUDENT TESTIMONIALS

"Without Arth it was almost impossible for me getting the cloud engineer profile. Because of only Arth, today I am aware about ample of technologies & their integration with each other. I would like to say thanks to my all Arth family & Vimal Sir and Preeti mam for the support & guidance."

Deepak
UIET, MDU

ARTH Program is totally changed my life, my mindset even created a positive energy in me & also around me. When I was not started this journey I feel every time demotivated about my preparation of job or placement but when I joined ARTH after 2-3 Month I feel I will definitely cracked interview & placement based on this knowledge. Vimal sir is God for me because he changed my entire life very smoothly. Luv U so much Sir ❤️ ❤️ ❤️ ❤️

Ashutosh Kaushik
Jaipur Engineering College and Research
Centre, Jaipur

In arth, the concepts taught by Vimal sir about cloud and devops helped me a lot in my interviews and placement processes.

Divya Kurothe
Oriental Institute of Science and
Technology

ARTH is not only the educative course, It is a mission that is started by Vimal sir and Team to prove that Indian Engineers can be technology creators. I remember those late night lectures, they were full of learning and grooming oneself. ARTH gave me an opportunity to develop not only the technical skills but also cognitive skills. To be a part of ARTH - The School of Technologies was one my best decision of life. The journey in ARTH was memorable. Huge Respect and Love for Vimal sir and Team.

Piyush Bagani
LDRP Institute of technology and Research

I Think Arth Program is the only reason for the growth in my carrier. Before joining Arth I hardly know one language i.e C and don't know the path to go forward but After joining Arth life has completely changed I learned all the technologies which sir taught us . The Task that gave by the vimal sir and Arth team I completed every task and keep posted on linkedin and based on that posts one company offer me the job from the front which I am currently working. This is the best things about Arth Program that they make you Technically so strong from low level to high level so that Company offers you job from the front without even apply for job.

Saurabh Ganesh Kharkate
Dr. Ambedkar Collage, Nagpur

STUDENT TESTIMONIALS

"In ARTH, I learnt about AWS, DevOps tools like Ansible, Kubernetes, Jenkins, git along with these tools I get to know about Linux, problem solving skills and many more that helped me to shape my skills to grab great opportunity. Being part of ARTH I also learnt soft skills. as well i would like to thank linuxworld for this opportunity. "

Rajneesh Pratap Singh

SR Institute of Management and Technology Lucknow

Recently I got placed in Seclore as a CloudOps engineer. And I give all the credit to ARTH - The School of Technology and Init Program. And I started my journey with Linux World from IIEC Rice program and after that I have been a part of sir's all program.last but not least I would like to say thank you to sir, Vimal sir and Preeti ma'am for changing my entire life.Sir you are the Source of energy"

Rahul Rathod

Mandsaur University, Mandsaur, MP

"My technical journey with Vimal Sir started from **14th Feb 2020**. And am glad to say that his right guidance - my attitude, his awesome content - my consistency with that, his motivation - my discipline --> all led me to a become successful person. Today I'm working in Red Hat, the dream company in a right profile. This was possible for me only because of the one man army '**VIMAL SIR**' . He helped me believe in Continuous Learning & Continuous Development, the right approach of learning anything, the right attitude towards holistic development, the sharing & helping culture etc Not only this I am happy enough to share that I am putting my efforts towards the vision '**Making India Future Ready**' successfully with him by helping other learners in shaping their career."

Krushna

KIIT University, Bhubaneswar, Odisha

My interview round was carried by the knowledge delivered by ARTH. The core idea of devops was definitely a topic for a long discussion, along with my concepts of the same. It was definitely amazing to see that I knew some things that even the Industry leaders interviewing me found amazing.

Shivam Shukla

The LNM Institute Of Information Technology, Jaipur

"I am writing to express my gratitude to Vimal Daga Sir and Linuxworld who helped me successfully secure the role of DevOps Associate in OnGraph Technologies. I especially appreciate Vimal sir's teaching approach for making my concepts crystal clear.Through ARTH, I learned more than 7 tools with core conceptual knowledge which helped me to crack this interview and secure DevOps Associate role in 3rd year of my engineering. All of this would have been impossible without Vimal Sir and INIT team."

Akash

Vivekananda Institute of technology, Jaipur

STUDENT TESTIMONIALS

From Zero job offers to multiple ones, that's my success story!

Jasprit Kaur

Ramgarh Engineering College, Ramgarh

My perspective of the technological world has completely changed and my learning curve has only gone up exponentially

Archishman Ghosh

Academy of Technology, Kolkata

STUDENT TESTIMONIALS

This journey I can say it's turning point of my life where from sir & whole ARTH team I came to know what happens in industry & sir gave us that much knowledge introducing us topics that are must & every IT learner must know & in these days I learnt a lot from him such as time management, facing challenges while doing tasks, then myths about technical tools, meeting new people & much more.. Thanks a lot, Vimal Sir & Preeti Ma'am One day sure I want to meet you both though your blessings are always with all ARTHians♥

Gulsha Shreekumar Chawla

One of the best things that I came across. Never thought I'd be learning these many technologies. I have really learnt a lot of things in these 7-8months of ARTH, My college mates are totally shocked after seeing my skills, even my college seniors ask me for help in some of their projects. I am really blessed to have joined this life changing journey. Last but not least, Vimal Sir is just GOD for my Technological Journey♥ . I now have the ability to see things in a different way. Thanks Vimal Sir, Preeti Mam and the Entire LinuxWorld Team for bringing this awesome Platform

Charan Vaddepally

One of the best training session ever I attended in my entire life till now. I'm a type of student who have very less knowledge in some of the tools of DevOps, Cloud, and so on, after joining this training I feel that I can do anything in any of the technical and non-technical domain with great confidence. This training is not only focuses on students technical knowledge but they also try to build all the students mentally strong and so on. At last, I'm thankful to Vimal sir, Preeti ma'am, LinuxWorld team for organizing this kind of training.

Naveen Pareek

This program literally has changed my life. Whatever I am now and will be in future is just because of this program and Vimal daga Sir. Now I can see a far better version of myself and have gained more confidence. This is not just a training program, it's a part of life the best thing that has happened to me. The most important part of is from ARTH I haven't get only technical knowledge but also I understood our true values, how to be a better spirit, how one can impact other's life and many more. The things that I have learnt just can't be listed it's immense, way beyond one's imagination. I have seen many ups and downs during this entire journey but at last I don't want this program to end ever. ARTH is not just a program it's my emotion.

Tejaswita Soni

STUDENT TESTIMONIALS

EVERYTHING IN ARTH IS PERFECT AND BEST. Just only problem faced by me was practicing all the concepts. The problem was not about concepts, problem was about time. College + Arth.

I don't much attend lectures of college and focus on Arth but too I have to give it some time. But will complete all the remaining tasks soon. And Now I am in both Arth + Summer so no time. Yes I am giving my full efforts to do both with my %. And want to meet Vimal Sir I have to questions but want to meet sir. And I want to tell one thing when I completed my 12th I have no idea what I will do ahead no path no idea was just playing games. But then I got to know about Arth.

I saw the brochure but didn't understand anything. All the technology names were new. But the didi told me about the Arth I can trust her blindly about study and career guidance. So I took Arth and Got my first ever Laptop.

I was not even comfortable with windows didn't know much. But after this 9 months I even Know Linux any many other technologies. Thank You Thank You and Thank You.

Avijit Das

It's a great journey, I achieved some great things that I had not expected from me. It's all possible because of Vimal Sir and Preeti ma'am. Their dedication towards us is something I can't say in words. They did every possible thing they could. From teaching technical things to teaching about some great aspects of life, they did a lot for us ☺. Those pranic healing sessions, nobody do this much in any technical training. Thank you so much sir and ma'am We trusted you from day 1, and you are keeping our trust till last day, hope after completion of this journey also. We have a special place and respect for Vimal Sir in our hearts.

Shubhashri Sinha

No doubt that the ARTH journey will be one of the best Phase of my life . Every one of the ARTH family contributing their best From Vimal Sir and Preeti mam to TV, LSH, Team Leaders. It turned my technical life from zero→Hero . And I think ARTH is the only one who not only focuses on Technical stuff but also creates Humanity, helping nature, etc. social aspects in learners. And one of the best examples of it is THM sessions . ARTH'ians will be always special in Technical Industry and Stand out from Crowd. I will be always thankful to Vimal sir and Preeti mam for being in my life.

Accomplishing Milestones WITH HUMANITY!

CITY FIRST

Pillai Bhupathy Pillai & Prabhakar Pillai, Viswanath Daga and Preeti Daga hosted a two day felicitation programme "Milestone with Humanity" Talk on Saturday to keep humanity at the heart of our endeavour. Dr. Jaydev Patel graced the occasion as the chief guest and enlightened the audience with words of wisdom.

During the programme, Viswanath Daga, a World Record Holder and the Founder of EEC & IAE ILLA, Viswanath Daga, felicitated the speakers.

This event was all about our honest initiative to change the perspective of education and technology while placing a key emphasis on the importance of preserving humanity in our day-to-day life. The speakers shed light on the event outcome. Preeti addressed, "This workshop was intended to help students to continue work culture and education system for ensuring a holistic growth of next era. Various young achievers and professionals from different walks of life were also filled with their success, ambitions and interests."

The event also provided

special experts from the young technology enthusiasts to showcase their talent in applying the education on some pressing social issues like women's safety of girls, nutrition, crime management, COVID control, and so on.

"We are grateful that we serve people to have the power of knowledge in all the participants in this event and contribute towards making the world better place to live in," Viswanath concluded with a satisfied smile on his face.
